

PREET SANDHU
EXECUTIVE DIRECTOR, AVPL INTERNATIONAL

“AT AVPL, WE BELIEVE IN HARNESSING THE POWER OF TECHNOLOGY TO CREATE POSITIVE CHANGE. THE NAMO DRONE DIDI SCHEME ALIGNS PERFECTLY WITH OUR VALUES OF EMPOWERMENT AND PROGRESS, AND WE ARE PROUD TO SUPPORT INITIATIVES THAT UPLIFT WOMEN AND COMMUNITIES.”

Breaking Barriers:

AVPL International Champions Gender Equality with NaMo Drone Didi

The drone industry is witnessing exponential growth in India, driven by technological advancements and the increasing demand for skilled professionals. However, amidst this rapid expansion, there remains a glaring gender gap, with women significantly underrepresented in the field.

Recognizing the need for women empowerment and inclusive growth, Prime Minister Narendra Modi launched the visionary "NaMo Drone Didi" scheme, aimed at training rural women as drone pilots. AVPL International, a global leader in the drone industry with a presence in 12+ states, and 76+ drone training centers across India, proudly aligns with this transformative initiative, strengthening our commitment to empowering women and fostering socio-economic development.

Addressing the Gender Disparity

Despite the growing demand for drone technology, women continue to face barriers to entry in the industry. The NaMo Drone Didi scheme seeks to address this disparity by providing women in rural areas with access

to training and employment opportunities in drone piloting.

AVPL International emphasizes the importance of gender diversity in driving innovation and believes that by encouraging and empowering women, we can unlock new potentials and drive progress in the drone sector.

Contributing to Global Economic Growth

The empowerment of women through the NaMo Drone Didi scheme is not only a matter of social justice but also a strategic investment in economic growth.

By equipping women with drone piloting skills, we are expanding the pool of talent in the industry and stimulating entrepreneurship in rural communities. With our presence in multiple states across India and international markets,

AVPL International, owing to its well-positioned leadership in the industry, highly encourages the integration of women into the global drone economy, driving innovation and fostering sustainable development.

How AVPL Stands as a Beacon of Innovation and Encouragement for Women in the Drone Sector?

With a strong commitment to diversity and inclusion, AVPL has been at the forefront of promoting gender equality and empowering women in the workforce.

Our comprehensive training programs, led by experienced instructors, provide women with the skills and confidence they need to excel in the field of drone technology.

Through mentorship and support, AVPL nurtures a culture of empowerment and encourages women to pursue their passions and aspirations in the drone sector.

“At AVPL, we believe in harnessing the power of technology to create positive change. The NaMo Drone Didi scheme aligns perfectly with our values of empowerment and progress, and we are proud to support initiatives that uplift women and communities,” says Preet Sandhu, Director of AVPL International.

The NaMo Drone Didi scheme marks a significant milestone in the journey towards gender equality and economic empowerment. AVPL International is proud to stand in solidarity with this transformative initiative, forging an alliance that amplifies our shared commitment to empowering women and fostering socio-economic development.

As we gaze into the future, we envision a landscape where women's voices resound with authority in the drone industry and beyond. With our unwavering dedication to diversity, inclusion, and innovation, AVPL International is poised to navigate this path of progress alongside our partners, catalyzing change and shaping a brighter tomorrow.

Together, let us embark on this journey of empowerment, unlocking new opportunities and paving the way for a more equitable and prosperous society.
